HOW THE TIERS WORK

Measure: Add your service sales for four completed weeks and divide by four. Service sales are paid service revenue after discounts and refunds; tips, sales tax, and retail products are excluded.
Review: Every four weeks, your average sets your tier for the next four weeks. New barbers begin at 65% for their first four weeks.
Apply: Your tier applies to all eligible service revenue during that period, not just the amount above the threshold.

Example: A $1,200 weekly average qualifies for 70%. A later week with $1,200 in eligible service sales earns $840 in commission, plus tips, before any applicable charges or taxes.

BOOTH RENTAL: $275-$300 PER WEEK

Separate option for established independent barbers. Rate, availability, and included amenities confirmed during the interview. Active Arizona barber license required. Cleaning, processing charges, and full terms disclosed before acceptance.
